BÖWE BELL+HOWELL

Wide Format Scanning for Architecture, Engineering Services and Construction

Are You Scanning Documents with Today's Technology?

Waiting up to 45 minutes for your scanner to warm up, costly fluorescent bulb replacements and dedicated PC workstations all seem so... *yesterday*, don't they? We think it's time for some real scanning innovation as part of your wide format printing solution.

What would it be like if you could scan all of your drawings with the fastest scanner on the market and the best image quality?

With the Infinity WF™ Series of 36", 42" and 48" wide format scanners from BÖWE BELL + HOWELL, you can. Scanning C, D and E-size documents can be a pleasure instead of a headache. And with *Image Rotation*, you can scan 42" plans on a 36" scanner.

How about a better wide format scanning solution the next time your lease is up? How about a better scanning solution... *now*?

infinity^{WF}

Best Innovative & Fastest Performance Color Wide Format Scanner

- *First with 1Gbit LAN Scanner interface*
- *First with built-in touch screen for walk-up scanning, printing, and copying*
- *First with supporting Scan, Print & Copy in one default interface*

Your authorized *Infinity WF* dealer/reseller is:

Call **BÖWE BELL + HOWELL** at (800) SCAN-494
for the authorized dealer/reseller in your area

Infinity WF Scanning Benefits for AEC

Infinity WF utilizes the same tri-linear CCD SharpShooter™ camera technology as Ngenuity™, BBH's new B-size production scanner. Compare these specifications with other wide format scanners:

- Up to 1200 dpi with 600 dpi real optical capture
- 40 megapixel per second throughput
- 68,400 total pixel capture with Infinity WF 36" model
- 91,200 total pixel capture with Infinity WF 42" and 48" models

HASSLE-FREE SCANNING

- Fast: scanning speed up to *12.6 inches per second (IPS)*
- Image rotation: *scan 42" documents at a 36" price with no speed penalty*
- White LED lighting: *lasts the life of the scanner and no warm up time*
- Flawless stitching: images perfectly "stitched" together from all cameras
- Intuitive user interface: *touch panel and accessible via web browser*
- Flexibility: *scan-to-file, scan-to-print and scan-to-USB-flash-drive*

COMPATIBILITY

- Onboard LINUX operating system: *no PC required*
- Network scanning: only setup required is *to assign an IP address*
- Scan-to-print: *works with most every wide format printing solution, including HP, Océ and Xerox*

NO HIDDEN COSTS

- Everything comes in the box: including cabling, stand & scanning software

When it's time for wide format scanning, make sure you ask for *Infinity WF*. For more information, please contact your **BÖWE BELL + HOWELL** dealer/reseller, visit www.bbhscanners.com or give us a call at (800) SCAN-494 for more info.
