Nationwide Takes
Care of You

Every Step of the Way

TEMPORARY ACCOMMODATIONS • EMERGENCY SERVICES • PUBLIC ADJUSTING • RESTORATION

What We Do

We Take Care of You, Tonight

We place you in temporary accommodations until your home is repaired and ready for you to move back in. In the meantime, our public adjusting services ensure that you get the maximum settlement from your insurance company so that restoration can begin on the home of your dreams.

Get What You Deserve

Insurance companies have armies of adjusters protecting their interests with one goal in mind: settle your claim as quickly and cheaply as possible. Nationwide protects your rights every step of the way, ensuring you get every dollar coming to you for home repairs, personal property, relocation, additional living expenses, rental, and business loss. We typically get 30-50% higher settlements than you would get on your own. *This is called public adjusting.*

We're on Your Side

We are bonded and licensed by the Illinois Dept. of Insurance. We are Chicago's largest public adjusting firm with highly trained, knowledgeable insurance experts having over 100 years of experience on staff. Since 1990, we've helped thousands of homeowners get their lives back. You've paid your insurance company for years; now let us help you get what you deserve.

Expert Restoration

We will have your furniture and personal possessions restored, bring everything up to code, and leave you with a new home that's even better than you thought possible. Once we've obtained the maximum settlement, your home will be thoroughly restored, paid by your insurance company. You won't be burdened by added expenses, because we never collect until you do. Our #1 goal is to return you and your family to your beautifully restored home as quickly as possible.

Your Home, Your Choice

Insurance settlements only pay to repair your home exactly as it was. With our services, your home will be restored *how you want it*. From colors and countertops to fixtures and upgrades, you decide how you want your home to look. Our skilled architects and engineering specialists will also consult with you to transform your living space. Add a dormer. Create more floor space. Add a deck or balcony. Many homes are rebuilt with a new design.

A NEW HOME

This stunning home looks brand new. And in many ways it is. With nearly every structural and design detail completely transformed, it's hard to believe this is the same house.

TESTIMONIALS

“On Christmas Eve, 2008, we came home to discover a fire in our home. We chose Nationwide to help us navigate the process and to serve as the general contractor to restore our home. We were overwhelmed by the outcome. Nationwide exceeded our expectations! We’re glad we had Nationwide Adjusting on our side.”
— Congressman Jesse Jackson, Jr. and Alderman Sandra Jackson

“I thank you for being attentive, addressing my smallest concern with understanding, and restoring my house into a palace.”
— Dr. Momma Hawk

“Our home caught fire on January 27, 2009, and was a total loss. We were clueless as to what to do next, but thanks to Nationwide, we were guided every step of the way. Our adjusters explained everything thoroughly and were great to work with as well as very knowledgeable. We are very pleased with all the construction that was done and could not ask for more.”
— The Ramirez Family

“We would like to thank all the employees at Nationwide Adjusting who helped us, when a water disaster occurred on June 27, 2010. The courtesy and kindness you showed was great encouragement as we sensed the care you continue to have for this church. Restoration was completed in a timely matter. We are also very satisfied with the adjustment received. Thank you for the excellent work!”
— Mable Royster, New Joy Devine Church

STRUCTURAL REINFORCEMENT

Not only was this damaged structure unsound, but it was also no longer compliant with the city’s building code. Nationwide replaced the outdated structure with a modern system of trusses that eliminates the need for support beams, creating more floor space and increasing ceiling height.
